There has been a wonderful change in the betting. It was \$100 to \$70 on Fellows Friday night, \$100 to \$60 on Saturday, \$100 to \$70 yesterday, and to-day it is even up. To-night it will probably be \$100 to \$90 on Nicoll. To-morrow at 4 p. M., when the polls are closed and when the pollicidians know that the Labor party has cast over \$50,000 votes, the betting on Nicoll will be 2 to 1.

A well-informed man who was at the Hoffman House late last evening said: "Do you know that I think Fellows and Post will poll within 10,000 votes of each other? My candid opinion is that there won't be a difference of 10,000 in their votes. If my opinion should prove right Mr. Nicoll will have 20,000 plurality. I do not believe that Fellows, trading or no trading, can get the votes of 5,000 Republicans in this county. The Tammany Hall and County Democracy bosses will have to spend an immense boodle among their own followers. They cannot buy the organized Labor vote any more than they can buy the brown-stone vote.

It is expected that all sorts of campaign lies and tricks will be resorted to this aftermoon and evening by the bosses and boodlers. Voters are cautioned against paying any attention to the eve-of-election canards.

There is a rumor that Boss Power will run skin "Republican districts and "skin" Labor tickets and booths in the Republican districts and "skin" Labor tickets and booths on the east and west side of the city, The "skin" tickets will have ballots for Col. Fellows for District-Attorney. The

TO THE LABOR VOTERS

A vote for Post is a blank cartridge. A vote for Nicola is a solid shot. Why should an honest workingman waste his ammuni-

NICOLL is to Post as performance to promise. Nicola has shown and will show no 'quarter to public thieves." NICOLL has and will have "the same law for rich and poor." Why prefer an experiment to a certainty ? A vote for Post is not needed by the Labor

party. Its record will be made on Gronge. But a vote for Posr will help the Bosses, screen the Boodlers and defend the Machine. Shall laboring men assist their enemies?

A vote for Post is a vote in the air. A vote for FELLows is a vote in the mud. But a vote for Nicoll goes straight to the bull'seye of good government.

THE PARTY FETICH.

No trner words have been written in this sanvass than are these from the Times :

It is the men who vote their strict party ticket, use it is the party ticket, without reference to the character of the candidate or to the conseaces of his election, to whom the "bosses" are indebted for all the power for evil they possess, It is this worship of the party fetich-the

habit of "standing by the party through thick and thin "-that gives to the supporters of Fillows their only hope.

Will men who really desire decent poli-

ties and honest government vote on their judgments or by a heedless habit? Do they think more of regularity than of right? Do they value a label more than a man? Are they party serfs or free men? To-morrow will tell. The man who votes

against what he knows to be for the best public interest is unworthy of the suffrage. He deserves to be bossed, browbeaten and robbed.

TWO CONFESSIONS.

Col. FELLows confesses that he received \$523 from Tween on Feb. 1, 1871, the day after the disagreement of the first jury that tried the great Briber and Boodler. "I ad-

Mr. Tween confessed to Gov. Robinson, in a written statement made in jail as the paid, among other items, "\$500 to John. R. FELLOWS, July 11, 1871."

On Saturday Col. FELLows said the \$523 was all the money he ever received of Twans. To different reporters he had before said that "Tween was an old friend of mine and had helped me out before." On Sunday Tween's schedule showed another payment.

And now, voters, in the memorable language of the Boss : " What are you going to do about it ?"

If you want to serve notice upon all public officials NOT to be honest, NOT to serve the people, NOT to prosecute thieves, vote against NICOLL.

THEY OBJECT TO PACTS.

Of all the miserable twaddle that ever marked the defense of a bad cause the whine that Col. Fellows has been "abused," and is therefore entitled to sympathy, is the

Nothing but FACTS-proven or confessed truth-have been printed about Mr. FELLows in this canvass. We challenge his supporters to point to one false charge.

When the people's prosecutor of thieves is to be chosen, is it not proper to show that a candidate nominated in defiance of the people's will was the beneficiary of Boss Tween's bounty? When the prosecutor of gamblers is to be elected, may it not be shown that this candidate was a confessed gambler and "welcher?" When 12.25. No other evening paper was in sight. an office is to be filled demanding independence and honor of a high degree, is it not a duty to the public to show that this candidate does not pay his debts, not because of "poverty," but because of reckless living?

Is character to be a tabooed subject in a political canvass? Out upon such false and sickly sentimentalism!

HE WOULD NOT "LET UP."

Mr. Nicoll substantiates in his card, published this morning, the statement of THE Wearn that a notorious crony of corruptionists and shielder of thieves sent to him to "put off the trial of CLEARY," and promised him "political and journalistic services" as a bribe for betraving the people.

Mr. Nicoll's indignant refusal was couched in language more foreible than polite. Find. klay for public thieves ?

ing that NICOLL could not be induced to let up," or be sent to Hot Springs, the friends of the rich Boodler went to work to fix" the jury, and a disagreement followed. So much for "Bilk." And for this NICOLL was "knifed." Will the people confirm the assassination of an incorruptible servant?

A vote for Post is a vote thrown away and half a vote for FELLOWS.

EVERY CITIZEN'S DUTY. Let every friend of honest local government

plan and prepare to-day to vote to-morrow. The debt of New York is enormous: its tax rate is high; its government is shamefully lax AVERAGE PER DAY FOR THE ENTIRE in a disgraceful condition; boodlers boodle and bribers briber the boodlers boodle and bad in many departments; the streets are people suffer, CHIEFLY BECAUSE FORTY THOU-

Let the voice of New York be emphatic and decisive for the vindication of her law.

Labor men can show their strength by votes for GRORGE. Let them show their sincerity by votes for NICOLL.

THE CATHEDRAL PROJECT.

The purchase of a site for the \$10,000,000 Episcopal Cathedral insures the active prosecution of a project for an architectural pile that can be spoken of in the same breath with the Brooklyn Bridge and the Liberty Statue.

New York's business palaces are equalled, but her public buildings are for the most part unworthy of her. Not only can New York afford the very best of public structures, parks and streets, but they are a good investment. A Paris pays in France. Why not in America?

A city that is to be in the near future the metropolis of the world should set her standard high in all things. The cathedral project is a step in the right direction. Let us show the Europeans that we can surpass them even in the cathedral line.

A RELENTLESS DISSECTION.

Mr. Schunz never used his keen scalpel more effectively than in his pitiless dissection of Mayor HEWITT's letter.

The ABRAM S. HEWITT of to-day must blush for very shame when put put face to face with the ABRAM S. HEWITT of the past, Mr. Schung tells him plumply that "you have taken a step which in its evil effects threatens to outweigh all the good you have done or may do during the rest of your official term." CHICAGO'S GLOOMY TRAGEDY.

The attempted suicide of GROBGE ENGEL and the finding of bombs in the cell of Lingo add two sensational features to the mit the statement to be true," he says, in his gloomy tragedy of Anarchism now drawing to its close in Chicago.

Both of these incidents show an unaccountable carelessness on the part of the jail aubasis of an application for pardon, that he thorities. The most matter-of-fact precautions should have rendered either occurrence ntterly impossible.

ENGEL's attempted suicide has no significance other than that the Anarchists have given up all hope of escape from the gallows. The discovery of bombs in Lingo's possession has turned whatever popular sympathy existed into a demand for the rigorous enforcement of the law.

Mr. NICOLL's point blank affirmation that Bilk Dorshermen tried to induce him to "put off the trial of Cleary," shows that the Herald knew what it was writing about when it said of Mr. NICOLL:

He refused to yield to innumerable solicitations to "let up" on the Aldermen of 1884, but pushed their cases until they had to clear out to Canada or go to Sing Sing. Therefore he is to be laid on

Mr. Schuyler said: "We are receiving the most cheering reports to-day from every section of the city. Col. Fellows, the machines and the bosses will be buried by an avalanche of popular indignation. Put this down as a prophecy from me: Mr. Nicoll will carry the Seventh, Eighth, Ninth, Tenth, Eleventh, Thirteenth, Seventeenth, Nineteenth, Twentieth, Twenty-first, Twenty-third and Twenty-fourth districts. In some of them he will have a piarality of 4,000. It will be a hard fight between the machines and the Labor party in the First, Second, Third, Fourth, Fifth, Sixth, Twelfth, Fourteenth, Fifteenth, Sixteenth, Eighteenth and Twenty-second districts. In the flat house at Third avenue and Twenty-seventh street are four young men, equally divided in politics. The Republicans are of the strictest party stripe and declared that they would vote for Post, while the Democrats derided them for in this manner only half expressing their opposition to the idea of taking a candidate from the opposing party, suggesting that Col. Fellows should be elected by a majority which would effectually rebuke the Republicans. In taking up Democratic Nicoll. That was a week ago. But the exposure of Fellows's relations with Tweed, his written lie that he had never had any other money transaction with the biggest thief of lie that he had never had any other money transaction with the biggest thief of the century, and finally his "welching" record, forced all four of the partisans into silence for a day. Then at first the young Republicans thought they "had the laugh" on the other two, but were met by them with a serious "Really, boys, this is no joking matter. We shall vote for your candidate as the strongest rebuke to Fellows and the County Democracy boss."

And to-morrow all four will drop their ballots for De Lancey Nicoll, the personification of the people's movement for a clean administration of the affairs of the prosecuting attorney's office. For they know that Post's chances of election are not bright and they want no doubt about their rebuke.

Tammany men, whose memory of Col. Fellows's ever ready, pursuing and gratuitous abuse and vilification of John Kelly has been revived by reprints of his speeches, are not very hot in his behalf, to say the least; and thousands of Mr. Kelly's admirers will not be bound by the policy which caused Tammany's leaders to swallow that fearfully stale bit of crow, John Fellows, which the always insolent and insulting "Counties" forced upon them. Manager Robertson looked and confided to Mr. Ward that he - agreed with him perfectly. It was apparent to any one that rats had been dining sumptu-

ously on the boots, and that they were eternally ruined. Mr. Ward went back to his dressing-room, but was not gone long. 'Look at that," he said, on his return, in husky tones, pointing to his beautiful cavalry sword. The gold cord at the scabbard

The rats have become very bold at Wal-lack's during the past fortnight and fourteen guillotine traps are now in use. being afraid of rats and mice, but fortunately for her the pests seem to devote themselves solely to the actors' dressing rooms which are on the third floor above the stage.

How, the rodents got at Mr. Ward's boots has puzzled the company, for the boots were suspended from a hook on the wall. Mr. Robertson reasons that the rats climbed on the dressing bureau, thence walked up the legs of a pair of trousers, crossed from them on a coat, and thus triumphantly reached the boots.

for after one rat was caught in the jaws of the trap last week two of his friends came around and peacefully ate up the cheese with which the trap was baited. It has caused much surprise that a build-ing so new as Wallack's Theatre should con tain so many rats to the square inch.

for Col. Fellows. An interesting and instructive illustration of the methods employed by the boodle bosses in furthering the interests of Col, Fellows is furnished in the case of Joe Murphy, an ex-convict and saloon-keeper at 101 West Twenty-seventh street, who has just served a term of two and a half years for grand larceny. Murphy was appointed Inspector

larceny. Murphy was appointed Inspector of Election some time ago through Police Justice Ford, who bosses the district, but on Friday last he was withdrawn because it was thought that his services might be more valuable in working the Fellows boom.

He is now working outsude, and his services consist in visiting the various salcons and gambling places, and there are plenty of them in the Nineteenth Precinct, and promising the proprietors that if they will use their influence in favor of Fellows it will be all right, and that he is authorized to make this promise by the insiders.

This is the precinct of Capt, Reilly, who, as is well known, is also working for Fellows. Murphy came into public prominence several years years ago by a dastardly assault which he made upon a bootblack, setting two bulldogs upon him and smashing his head with a billiard cue.

The paper in question has been a con sistent defender of the defendants in all the boodle trials. It has never missed an oppor tunity to attack the prosecution as well as the Judge who presided. During the fortnight when the Cleary case was awaiting trial, William Dorsheimer, the editor of the paper in question, sent a gentleman to me whom I greatly respect. The gentleman told me he had come from Dorsheimer; that Dorsheimer wanted me to put off the trial of Cleary, or, if possible, to try any of the other pending cases before Cleary; that if I would do as he requested I could command his political and journalistic services on any occasion when I might need them. I replied that I did not care for his services. either journalistic or political, and that I would not deviate from the plan of conduct ing the boodle prosecution which I had mapped out for his or any other person's support, either journalistic, political, social or otherwise. FOUNDERED IN A HURRICANE.

THRILLING EXPERIENCE OF THE CREW OF

THE AMERICAN BRIG OSSEO. Their Vessel Wrecked at Sea, the Men Give

Jump Overboard From Despair-Thirty-Six Hours in a Hurricane-Rescued Just in Time by the German Ship Camella

The German ship Camelia arrived at Tompkinsville this morning bringing in the crew of the American brig Osseo, which met with a hurricane last Tuesday night and foundered. The Osseo, in command of John Stevens, and a crew of eight men left this port on Saturday, Oct. 3, with a cargo of general merchandise consigned to Gordon, Grant & Co., Port of Spain, Trinidad

On the following Tuesday, while in latitude 36 and longitude 71, a hurricane was encountered which lasted for more than thirty-six hours. The Osseo withstood the hurricane until late Tuesday, when a heavy northeaster struck her and broke the mainmast twenty feet from the deck. The seams in the forward part of the vessel opened and the water rushed into her hold. Then a great wave struck her which washed everything off the deck and carried two of the sailors with it. Another wave carried them back on the vessel, and they clung to the rigging, when they were rescued by their shipmates.

At midnight on Tuesday another heavy wind from the northeast struck the vessel and carried away the jib-boom, bowsprit and part of the foremast. The crew were at work at the pumps trying to get the water out of the but with little result, as the water poured in quicker than it was pumped out. Seeing that the pumps were of no avail, the captain

the pumps were of no avail, the captain stopped the pumps and hoisted a signal of distress on the remaining mast.

Early on Wednesday morning another heavy wind struck the vessel and carried away both of the small boats, leaving the crew alone on the deck of their vessel, which was rapidly filling with water and liable to sink at any moment at the mercy of the hurricane. Several of the men were partially disabled and both mates were powerless. ricane. The vessel was tossed on the ocean by every wave, answering to the rudder until about 2 P. M. Wednesday, when a sailor sighted a sail far away on the ocean, which was passing. The crew of the sinking vessel signalled and awaited patiently. It was at first thought that the signals were not seen on the passing sailing vessel, and one of the seaman became so discouraged that he attempted to jump into the sea, but was restrained by the rest of the crew. Luckily the crew of the passing vessel saw the signals and answered them. When the vessel got near enough, she tried to put about to the rescue of the sinking brig's crew, but the boat was tossed high in the air by the waves and filled with water. It san't at once. The occupants of the boat barely

by the waves and filled with water. It san't at once. The occupants of the boat barely escaped with their lives.

A second attempt was made, and it proved successful. The boat made its way to the Osseo and took off the crew. The ship was found to be the German ship Camelia bound to this port. The injuries of the mates and the several seamen were attended to, and the Camelia kept on he course. Late Wednesday night the Osset was seen to sink. The effects of the captain and the crew went down with her, nothing being saved but the clothes that they wore.

The shipwrecked crew came from Tompkinsville to this city this morning, where the agents of the Osseo, John Swan & Co., of 66 South gireet, took charge of them. Capt. Sevens is very thankful to the captain of the Camelia and says that all hands would have been drowned had it not been for him.

The Compininant Was Fined. Mary Jackson, a big, burly negress, was

charged in the Jefferson Market Court this morning with highway robbery. The complainant was ing with highway robbery. The complainant was ex-Park Policeman Henry Seymour, who said that he was sitting on the steps of his home at 2.25 this morning when the woman came along and robbed him of his watch. The woman denied this. She said that the man jumped up and caught hold of her as she was passing by, and that when he got to the Mercer street station he said that two colored men had stolen his watch. Officer Armstrong corroborated the latter part of the prisoner's statement. The Justice said that Seymour was too drunk to know who had robbed him if he had been robbed. The prisoner was discharged, whereupon the complainant became abasive. Justice Patterson ordered a complaint of disorderly conduct against him, and fined him \$10.
